

Product features:

- Wide range of power options
- Power Factor Correction
- Use as an 18kW in high ambient temperature
- 300Hz output option

At 24,000W this is the highest power ballast available for the location lighting market.

It is based on the same rugged, proven technology as our 18kW model.

It is a very versatile product which can be used with 3 different lamp powers.

Due to the additional cooling which is provided for 24kW operation, it can also be used as an 18kW ballast for high ambient temperature conditions.
